*Towards Advanced Diagnostics and
Transformative Therapeutics*

Dr. Eric Vermetten

Prof dr HGJM (Eric)Vermetten, MD, PhD, is a clinical psychiatrist working with veterans and other uniformed officers as Strategic Advisor (COL) of Research at the Military Mental Health Service with the Dutch Ministry of Defense and ARQ National Psychotrauma Center.

He holds an endowed chair in Psychiatry at the Department Psychiatry at Leiden UMC. He also has an Adjunct Professorship at the Department Psychiatry of New York UMC. He is trained in the Netherlands as well as in the USA in psychiatry and neuroscience (Stanford, Yale and Emory University). He has clinical as well as a research positions with a focus on medical/biological as well as psychiatric aspects of complex psychotrauma in military as well as civilian populations.

He has published over 200 papers, over 30 book chapters and edited several books on this topic. His research is in the field of stress, trauma, complex PTSD and neuroscience. He is interested in the history of war and has special focus on combining biological-based interventions in psychotraumatology with novel technology and novel drug developments, in particular MDMA, psilocybin, ketamine and medical cannabis. He is PI of a 10 year longitudinal cohort study of prospective research in military operations, PRISMO. Prof Vermetten is an ad hoc reviewer for numerous journals and granting agencies. He has lectured on the topic of PTSD, resilience, military and veterans issues as well as novel approaches to therapy across the globe
